

Houston Zoo at Home

ELEPHANT BATH

Elephant Alphabet

Ages: 3-7

Animals are helpful at remembering our alphabet. Can you pick an animal for every letter in the alphabet? Use your body to move like each animal as you go from A, B, C and so on. Share with us your best elephant move.

Elephant Math

Ages: 12-16

For this activity watch the video of zookeepers Mandy and Kim and our elephant herd. [Click here to watch!](#)

Do you remember what Mandy our elephant keeper said an adult elephant can eat every day? We have 8 adult elephants at Houston Zoo.

- How much food do they all eat in 1 day?
- How much food do they all eat in 30 days?

Share your project with us!
